

**Global Data Center - Flight Explorer Interface Service
Terms and Conditions and Registration Form**

1. Subscriber authorizes the Global Data Center (GDC) to send all position report data for the below listed aircraft to Sabre Inc for the express purpose of integrating such data into Sabre's Flight Explorer ® Aircraft Situational Display application and/or WebASD application.
2. Subscriber understands that the GDC assumes no responsibility for any data once it has been securely transmitted to Sabre and that the GDC does not provide technical support of Flight Explorer application(s).
3. Subscriber agrees to pay any charges associated with this GDC - Flight Explorer interface service as listed in the current GDC Service Fees publication or in any modification or supplement thereof.
4. Subscriber is responsible for notifying the GDC, in writing, when this service is no longer desired. The GDC will continue to send the subscriber's aircraft position report data to Sabre until such written notification has been received and processed by the GDC.

- I understand and accept the Terms and Conditions of the GDC - Flight Explorer Interface Service. Please initiate the service for the aircraft and associated Flight Explorer User ID(s) listed below.**
- Please terminate the service for the aircraft and associated Flight Explorer User ID(s) listed below.**
