Honeywell Pilot Services

Honeywell Pilot Services - Training

- **Free Entry-into-service (EIS) Support**

- For operators with new aircraft or new equipment (< 2 years old)
- Include software mods and upgrades like Cert Foxtrot, Sovereign Phase 5, CDS/R installs, or Primus Elite
- C&PS Flight Ops pilot will travel to the operator **free of charge** and provide any requested ground or in-flight training (FMS, VNAV, Wx Radar, GDC, etc.)
- Includes acceptance flight test at the service center

- **Flight Management System (FMS) and Weather Radar Pilot Training Seminars**

- Beginning 2011 **free-of-charge** world-wide regional seminars
- Schedule information for 2011 coming soon

- **Training at Operator's Location**

- If operators would like additional training on any Honeywell aerospace products (FMS Weather Radar, VNAV, EGPWS, RAAS, Autopilot, etc.), an instructor will travel to the customer's location
- Customer is billed for round trip airfare from the Honeywell pilot's base, 1 night hotel, \$50 day per diem, and transportation costs
- All electronic training materials are provided free of charge
- If paper copies of training materials are requested, printing charges are billed to the operator
- Note – if operators wish to travel to a Honeywell Aerospace training location (Phoenix, Kansas City or Seattle, WA) the travel fees are waived

- **Free Monthly Webinars**

- For those seminars that are 1.5 hours or less or for operators who want the flexibility of web-based training
- Free webinars on various subjects are offered monthly and can also be customized to meet your flight department's needs
- To participate, pilots just need access to a phone and the internet

For a list of pilots by platform, go to www.honeywelltraining.com and select 'C&PS Flight Operations' and 'Contact Us'.
To schedule pilot training and/or pilot support, please contact Pam Mannon, Flight Operations Manager, at +1-913-961-1901 or email pamela.mannon@honeywell.com.
